

President Elect

Frederick W. Groth, P.E., S.E.

GRAEF , Madison (Southwest Chapter)

Fred earned a BSCE and BSLS from Purdue in 1978 and also a MSCE from Purdue with major in Structures in 1979. He has worked in private industry as a structural engineer in various positions. He has worked with Flad from 1981 to 1989 as structural project manager/engineer, Marshall Erdmann & Associates, Inc. as manager of Structural/Civil Department from 1989 to 1993 and with GRAEF as principle/project manager out of the Madison office from 1993 to present. His responsibilities include managing the state governmental area (DSF) and project manager. Fred is an active member of the American Society of Civil Engineers (ASCE) and Wisconsin Society of Professional Engineers (WSPE). Presently he is serving on the WSPE Legislative Committee, Co-Chairman of WSPE Act 47 Steering Committee on Continuing Education for Professional Engineers and Alliance of Technical Professionals (ATP). Fred has also served as President of ASCE Wis. Section and on various other ASCE committees.

Vice-President

Pam Mazur, P.E.

Northeast Wisconsin Technical College (Fox River Valley Chapter)

Pam graduated from Purdue University with a Bachelor of Science degree in Civil Engineering. She also received an MBA from UW-Oshkosh. She is currently Associate Dean, Engineering Technologies, at Northeast Wisconsin Technical College. Pam previously worked at Procter & Gamble and Carver Boat. Her other professional affiliations include ASEE (American Society for Engineering Education) and NCATC (National Coalition of Advanced Technology Centers). While at Purdue Pam was a member of ASCE, served as President of the Chi Epsilon chapter, and was inducted into Tau Beta Pi.

Vice President

Edward M. Rodden II, E.I.T.

HNTB, Milwaukee (Metro Chapter)

He graduated in 2008 from UW-Milwaukee with a BS in Civil Engineering and an Associates degree in Civil Engineer in 200 from MATC. Ed is currently employed as a transportation engineer with HNTB in their Milwaukee office. He has a long history of work in the civil engineering field, including five years as a technician with the City of Waukesha, two years in Geographic Information Systems and 3 years as lead inspector on municipal projects with Ruekert & Mielke, Inc. He currently works with HNTB where he spent two years on STH 100(Ryan Road) as an inspector while completing his engineering degree. He is currently working on final plan preparation for WisDOT projects on the northern end of the 35-mile I-94 North-South Corridor, including assisting with the development of construction staging and maintenance of traffic, CS/MOT plans for the Mitchell Interchange. Ed has been a member of NSPE for 1 year and actively participates in his local, Metro Chapter of WSPE. He plans to use his energy and enthusiasm for engineering to encourage colleagues and students to join NSPE and help make a positive difference in the profession. He is also active in the American Society of Professional Engineers while attending multiple ITE events.

Vice-President

Glen R. Schwalbach, P.E.

PROBITY Consulting LLC, De Pere (Fox River Valley Chapter)

Glen earned a B.S. degree in Mechanical Engineering from the University of Wisconsin-Madison and a M.B.A. from the University of Wisconsin-Oshkosh. He is retired from WPS Resources Corporation where he was Assistant VP-Corporate Planning and from Wisconsin Public Service Corporation in Green Bay where he was Assistant VP-Gas Engineering. He is Past-President of the Wisconsin Society of Professional Engineers and Past Regional VP and Board Member for the National Society of Professional Engineers. Glen is now serving as WSPE's national director on NSPE's House of Delegates. He served on the boards of the North American Energy Standards Board, on a task force for the National Petroleum Council and task forces for the Natural Gas Council. He also served on the U.S. Dept of Energy's Gas Experts Expedition to Indonesia to train their Ministry of Mines and Energy on gas markets. Glen is the recipient of numerous awards, including the 2001 Wisconsin Professional Engineer of the Year, the 1993 Outstanding Professional Engineer in Industry, and the Platinum Service Award from the American Gas Association, and was named an NSPE Fellow in 2007. Glen was recently elected as Town Supervisor for the Town of Rockland in Brown County.

Secretary

Angela Hanz, P.E.

USDA Rural Development, Stevens Point (Wisconsin Valley Chapter)

Angela is a 1996 graduate from UW-Platteville with a B.S. in Civil Engineering, and is a licensed P.E. in the state of Wisconsin. She worked in the private industry from 1996 until 2004 when she joined USDA Rural Development in Stevens Point as the State Engineer. Her job responsibilities as State Engineer include administering the water and environmental federal funding program throughout Wisconsin. She is responsible for interfacing with the program applicants, the engineering community, and the regulatory agencies. In the interest of developing the best possible projects, she also reviews, advises, and approves the technical aspects of the projects funded by USDA Rural Development. Angela became a member of NSPE/WSPE in 2006 and participates in the Wisconsin Valley Chapter of MATHCOUNTS. Angela currently serves as the Secretary for WPSE and is also a member of Chi Epsilon.

Treasurer

James A. Buggs, P.E.

CH2M Hill, Milwaukee (Metro Chapter)

Jim received his B.S. degree in Civil Engineering from the University of Wisconsin-Platteville in 1988. He has been involved in transportation design and construction projects since college and is currently employed as a transportation project manager by CH2M Hill in Milwaukee. Jim has served the Waukesha (now Metro) Chapter of WSPE as the Secretary (two years), Vice-President, President-Elect, President, State Director, and Chapter Director. He has served on the State Board as Vice President, Treasurer (two terms), President and Past President. He received the Waukesha Chapter Engineer of the Year award in 2002. In addition to his membership in WSPE and NSPE, Jim belongs to the American Society of Civil Engineers where he has served at the local and state levels, including three years as Secretary for the Wisconsin Section. He is also a member of the Institute of Transportation Engineers and Chi Epsilon. Jim is a registered professional engineer in Wisconsin.

Young Engineer Representative

Gary Ferguson, E.I.T.

CH2M Hill, Milwaukee (Metro Chapter)

Gary is a native of Medford, Oregon and a 2008 graduate of Oregon State University with a Bachelor of Science in Civil Engineering. His focus in school was transportation engineering and he has completed several graduate-level transportation courses. Gary is employed as a transportation engineer with CH2M HILL in their Milwaukee office. During college he completed three civil engineering related summer internships in Medford, including working directly under the owner of a small geotechnical firm, working as an engineering inspector for the Oregon DOT, and working as a civil and structural designer. He is currently working on the design of the Mitchell Interchange reconstruction as part of the I-94 North-South Corridor project in SE Wisconsin. Gary's hobbies and interests include golfing, basketball and the outdoors in general, including a new interest in ice fishing.
